Friday, August 31. 1722.

THE following Address of the County Palatine of Lancaster, has been presented to His Majesty by the Right Honourable the Lord Viscount Townshend one of His Majesty's Principal Secretaries of State, in the presence of the Earl of Derby Lord Lieutenant of said County.

To the King's most Excellent Majesty,
The humble Address of the Lord Lieutenant and the Roturorum, the High Sheriff, the Deputy Sheriffs, Justices of the Peace, the Grand Jurors, and Gentlemen of the County Palatine of Lancaster.

Most Gracious Sovereign,
The Intimation your Majesty has been pleased to vouchsafe us of a wicked Conspiracy, in favour of the Pretender, which might go near to overturn our Excellent Constitution, demands our utmost Gratitude to Providence, for putting it into your Majesty's Power to detect; and to your Vigour (always tending to the good of your People) defeating the repeated Attempts of restless and ingrateful Spirits, perverse to all the Instructions of Royal Clemency; who utterly forsaken off Sense of Duty and Reason, would inconsistently pretend to preserve English Liberty, by introducing Arbitrary Government, and a Popish Religion, by a Popish Head.

beg Leave, upon this Occasion, to assure your Majesty of our inviolable Attachment to defend our just Title to the Crown of this Realm; and, as we have engaged ourselves by the solemn Ties imaginable, so we will actually expurges to the utmost, to maintain it, and the succession in your Royal Family, as our greatest Sely under Heaven. And though the late unnatural Rebellion was too much encouraged in the Parts, yet we can with great Truth and Satisfaction inform your Majesty, that you have many faithful and good Subjects in this County; and most whom are,

May it please your Majesty,
Your Majesty's most faithful
and loyal Subjects.

Aug. 9. His Britannick Majesty's Ship of war commanded by Capt. Scot, which sailed from hence to Leghorn, is returned to this Port. After of a Vessel lately arrived from Ancona, that in the Sea of Castella were seen three large Turkish Ships supposed to be Sultan's, forced from their Fleet by the great Storm, dispersed them the 16th past, in their Passage towards Barbary. It is assured, that Orders sent to all the Austrian Ports to receive the Turkish Saltanas which may happen to put in there, and buy Provisions with their Money, to put them to land their People unarmed, and to give what Necessaries they stand in need of, ob-

serving the same Precautions of Health as are practised at Syracuse. The last Advices from Malta say, they are in no further Apprehensions of the Turks, and were fitting out Ships and Gallies, to cruise upon the Pyrates. Advices by Ships from Alicant, give an account that the Spanish Squadron being returned thither, was sailed again from thence, after taking in fresh Provisions, and 'twas believed were gone towards Algiers. A Master of a Vessel from Tripoli has brought Letters from the Sailors of our Ship lately commanded by Capt. Decotto, taken and carried into that Port by two Corsairs; the Letters confirm the Death of that Captain by the Wounds he received in the Engagement, in which seven of his Crew were killed and 16 wounded; and that the Pyrates, encouraged by that rich Prize, had unladed the Ship and were refitting her to go out a cruising, in Company with two large Gallies. The Master of a British Ship from Cadix reports, that the Barbary Corsairs have taken a Maltese Bark off of Monaco, with all the Crew. Several Jesuit Fryars of different Nations are assembled here, waiting to embark upon their Missionary Service in the Indies. Letters from Milan say, that the Bishops who were empowered to take Informations of the Life and Miracles which God has wrought at the Intercession of the late Pope Innocent XI. were upon the Point of finishing that Work, in order to proceed to the Beatification of that Pontiff.

Venice, Aug. 22. The Death of the late Doge Sig. John Cornaro, was publickly declared to the People the 17th Instant, by tolling of Bells in the Morning in all the Churches of the City. The same Day an Image of him was publickly exposed in the great Hall of Escutcheons, and at Night carried to that called the new Auditory, where it remained upon a Bed of State till the 20th, when the Funeral Obsequies were performed: In the Morning the Image was born upon a Bier processionally to Sts. John and Paul's Church of the Dominicans, where a solemn Service was said. The Procession moved slowly round St. Mark's Square; eight Captains of Ships carried the Bier; then followed the Pope's Nuncio, and on his Right Hand the eldest Son of the deceased Doge; 60 Senators, two and two, in their Scarlet Robes; and lastly, the Kinsfolks of the Deceased in deep Mourning Habits, training on the Ground. The Image was laid upon a sumptuous Mausoleum in the Church; the Church hung with Black, adorned with the Arms of the Cornaro Family, and divers Emblematical Representations, and illuminated with above 2000 Tapers and Flambeaux; and the Funeral Oration was pronounced by the Canon Bereni, with general Applause from a great Crowd of Hearers. The Grand Council met the next Morning for the first Time, to deliberate the Choice of a new Doge. A French Ship arrived the 17th Instant from Tripoli,

poli, and the Master reports, that four Men of War are fitted out there, one of 54 Guns, and 600 Men; the second of 46 Guns, and 500 Men; the third of 32 Guns, and 400 Men; and the last of 20 Guns, and 300 Men; all ordered upon the Cruise.

Paris, Sept. 5. The Abbé de Franciere and du Rieux, Doctors of the Sorbonne, have received Lettres de Cachet, forbidding them to be present at the Assemblies of the Faculty. M. Bignon, Master of Requests, eldest Son of the Intendant of this City, has the Survivorship of the Place of Library Keeper to the King, now possessed by his Uncle the Abbé Bignon. The Prime Minister's Levy is daily crowded by Persons of the greatest Figure; and 'tis still talked, that a Company of 24 Guards du Corp will be formed for his Guard, as the Cardinals de Richelieu and Mazarine had; the Captain's Post also is very much contended for, and, as 'tis said, even by Lieutenants and Majors General. Nothing is yet determined as to the Disposal of the several Branches of Foreign Affairs; some say the Cardinal will still reserve the Management of them to himself. It is reported, that by the 20th Instant the India Company will be put upon a good Foot, and its Office removed shortly from the Hotel Pomponne to that of Mazarine. This Company begins their Sale, for ready Money, of the Cargoes lately arrived on board their Ships the Galatea and Moor. M. Forbin de Janson, Archbishop of Arles, is about to lay down his Archbishoprick, and retire to a Convent, some say, to the Abbey de la Trappe, where he has a great Uncle. It is expected that considerable Alterations will soon be made in the Offices of the Finances, the Cardinal-Minister being determined to have exact Order and Method kept, the better to raise publick Credit.
